An investor should consider the Plan's investment objectives, risks, charges and expenses before investing. The Program Disclosure Statement, available at NEST529.com, which contains more information, should be read carefully before investing. Investors should consider before investing whether their or their beneficiary's home state offers any state tax or other state benefits such as financial aid, scholarship funds, and protection from creditors that are only available for investments in such state's qualified tuition program and should consult their tax advisor, attorney and/or other advisor regarding their specific legal, investment or tax situation.

*Account owners may deduct for Nebraska income tax purposes contributions they make to their own account (and any other accounts they own in the Nebraska Educational Savings Plan Trust) up to an overall maximum of \$10,000 (\$5,000 if married, filing separately). Contributions in excess of \$10,000 cannot be carried over to a future year. For a minor owned or UGMA/UTMA 529 account, the minor is considered the account owner for Nebraska state income tax deduction purposes. The minor must file a Nebraska tax return for the year their contributions are made to be eligible for a tax deduction for their own contributions. In the case of a UGMA/UTMA 529 account, contributions by the parent/guardian listed as the Custodian on the UGMA/UTMA Plan account are also eligible for a Nebraska state tax deduction.
