

Why? I Would Like To Go To College

By: Aiden Jurgensen

Why would I like to go to college? College is a fun place to learn and play sports. College holds your future life and the way you live it. I would like to go to Wayne State College or Northeast Community College. They both are wonderful colleges.

I would like to go to college because it is fun and I can learn a lot of stuff. There are lots of stuff like sports, learning, and fun activities. The thing about college is you go to class on time and I'm always on time to my classes. College is just like a guide about what you will be doing in your future life.

I would like to go to college because I can make new friends there. Also learn more about them and their cultures and traditions. The thing I like about college is the food you can just go and get food at the cafeteria during lunch, and most colleges have great food that is served.

I would like to go to college because they have some affordable dorms and you can live on campus. So people don't have to walk that far to their classes, and when I have free time I can go shoot some hoops in the gym. I want to go to college to be a math teacher for high school in my later years. Also i would like to play basketball too, I like playing basketball.

I would love to go to college because they have great food, places to live, sports, and fun things to learn. So I hope to go to college one day. It would be my dream, and I want to be a highschool math teacher one day.
